Future Notes in 2023

Alex Aldridge, Canada

April 18, 2023

Forecast

- Automated print-on-demand services.
- Quadcopters are too slow for future food delivery services.
- Thin film PCB consumer computers.
- BTTF inspired flying jet cars.
- Electrically powered embedded highways.
- Tesla robot invasions and judgment day.
- Everyday interplanetary rocket travelers.
- Lunar doomsday vault.
